ABOUT

WordPress Specialist with 5+ years of experience designing, building, and maintaining websites across agency and freelance environments. Delivered 60+ websites using WordPress, Elementor, WooCommerce, and ACF, with hands-on experience in CRM integrations, technical SEO, and website performance optimization. Comfortable leveraging AI tools including Claude, ChatGPT, Cursor, and AntiGravity to implement custom features and solutions efficiently.

PROFESSIONAL EXPERIENCE

ebsCA / ebsDigital - (Wordpress Developer)

Dec 2022 - Present

- Managing 16 subdomain websites and 6 main websites for an accounting and digital marketing firm, handling end-to-end development, maintenance, and performance optimization.
- Built and customized websites using WordPress, Elementor, ACF, and WooCommerce, including a client-facing eCommerce store for the agency's digital division.
- Designed UI mockups using Lovable and Google Stitch, then converted generated HTML/CSS/JS code into Elementor JSON templates for direct import into WordPress as full pages or reusable sections.
- Extended Elementor functionality by converting custom code sections into Elementor widgets using Elementor Agentic AI, and enhancing existing widgets with custom JavaScript for dynamic interactions.
- Developed custom WordPress plugins and tools including Salary & Gratuity Calculators and WPS Generators, using AI-assisted development with Claude, ChatGPT, and Cursor.
- Integrated web forms with Zoho CRM and GoHighLevel (GHL) to streamline lead capture and management across multiple client campaigns.
- Implemented on-page and technical SEO and performance optimization across all managed properties.
- Recovered and restored hacked websites, then implemented comprehensive security measures including Wordfence, Google reCAPTCHA v3, Honeypot, login attempt limits, WPS Hide Login, Cloudflare integration, strong password policies, regular plugin/theme updates, and daily backups.
- Managed domain, hosting, and SSL configuration for all websites independently.
- Collaborated daily with a team of 8 across marketing and agency departments to coordinate projects and deliver timely results.

IPAC Foundation / American Rotation LLC - (Wordpress Developer)

Jan 2022 - Oct 2022

- Managed and maintained 2 WordPress websites for a dual-entity organization operating across Pakistan and the USA.
- Handled complete website setup, theme customization, speed optimization, and responsive layout adjustments independently.
- Communicated directly with the CEO of American Rotation LLC (USA) to understand requirements and deliver solutions aligned with business goals.
- Resolved technical issues and ensured consistent website performance and uptime.

ZMK Tech Solutions Corp / Part-Time Remotely - (Frontend Developer) April 2021 - Dec 2021

- Contributed to a large-scale web application project, developing and refining multiple interfaces and screens using React.js, Material UI, and Bootstrap.
- Collaborated with UI/UX designers to translate design concepts into functional, responsive interfaces.
- Identified and resolved code errors and performance issues to ensure smooth application delivery.
- Gained hands-on experience working remotely within a professional development team environment.

Slushy Studio / Flika Studio - (WordPress & CMS Developer) April 2020 - March 2021

- Worked across two allied digital agencies simultaneously, managing approximately 10 client websites on WordPress and Shopify platforms.
- Redesigned and customized websites to improve functionality, user experience, and visual appeal based on client requirements.
- Optimized website performance using GTmetrix and Google PageSpeed Insights, identifying and resolving speed and rendering issues.
- Performed theme customization and plugin integration to extend website functionality per client briefs.
- Delivered projects for both local Pakistani clients and international clients acquired through Upwork and Fiverr, gaining early exposure to global freelance market standards.

FREELANCING EXPERIENCE

Freelance Web Developer & Digital Marketing Consultant April 2020 - Present

- Delivered web development and digital marketing projects independently for clients based in UAE, USA, and UK, primarily acquired through referrals and freelance platforms including Fiverr and Upwork.
- Provided end-to-end website solutions including WordPress development, domain/hosting setup, SSL configuration, and ongoing maintenance.
- Offered SEO consulting aligned with Google E-E-A-T guidelines, covering on-page optimization and content strategy.
- Planned and managed Facebook (Meta) ad campaigns for clients across various industries.
- Executed graphic design projects using Canva and AI-powered design tools for social media and marketing materials.
- Produced content using AI tools for websites, social media, and marketing campaigns.
- Coordinated with a trusted network of specialist collaborators for projects requiring additional expertise, ensuring full-service delivery to clients.
